DESCRIPTION

A house that is filled with charm. You'll be greeted with original hardwood floors that have been well taken care of. Step upstairs to find comfort and privacy with the bedrooms and full bathroom being on this floor. As you stroll downstairs through the living room and the formal dining room, you'll find an office nook and the kitchen with appliances to stay. After you walk through the laundry room, you can head outside where you'll see a newer privacy fence installed in 2021, and the wiring in the garage was done that year, too. When you enter through the back door again, you can head down the steps to the basement where there's a nice finished area and a bathroom. This house has been taken care of with the utmost respect. May you be enchanted by its charm, too!
